INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/US03/32578

V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. STATEMENT

Novelty (N)	Claims <u>1-51</u>	YES
	Claims <u>NONE</u>	NO
Inventive Step (IS)	Claims <u>1-51</u>	YES
	Claims <u>NONE</u>	NO
Industrial Applicability (IA)	Claims <u>1-51</u>	YES
	Claims <u>NONE</u>	NO

2. CITATIONS AND EXPLANATIONS

Claims 1-51 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the claimed method for determining a location of a target mobile appliance in a wireless communication system with a network overlay geo-location system comprising the step of determining a serving sector from the pre-assigned sectors in the MSC, the step of determining from a database whether the serving sector's base station has a smart antenna, and the step of scanning antenna elements of the serving sector's base station and taking sensors in proximity of actual sector to locate the mobile appliance.

Claims 1-51 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
